CAREER OBJECTIVE

Enterprise software engineer with 2 years at Accenture delivering full-stack applications in C#, ASP.NET Core, and Azure, complemented by a Master of Computer Science (Machine Learning and Big Data) with Distinction from the University of Wollongong. Experienced across the full development lifecycle from backend API design to ML model deployment, with hands-on delivery of live SaaS products and AI-integrated platforms. Brings a rare combination of enterprise rigour, graduate-level research depth, and a proven instinct for shipping real solutions to real problems. Passionate about contributing to teams where technical depth and product thinking drive meaningful outcomes.

TECHNICAL SKILLS

Languages: C#, Python, SQL, JavaScript, TypeScript, HTML, CSS

Frameworks & Libraries: ASP.NET Core MVC, .NET, React.js, FastAPI, Next.js, Express.js, Node.js

AI & ML: Machine Learning, Deep Learning, NLP, Computer Vision, LLM Integration, RAG Systems, Claude API, Prompt Engineering

Databases: SQL Server, MongoDB, Supabase, SQLite

Cloud & DevOps: Azure, AWS App Runner, Vercel, Render, CI/CD Pipelines, Docker (exposure), Git, GitHub

Tools & Practices: Agile/SCRUM, Postman, REST API Design, Unit Testing, Code Review, Stakeholder Communication, Technical Documentation, Requirements Gathering

RELEVANT EXPERIENCE

Software Developer

Jul 2025 - Oct 2025

MegaTransact, New Zealand (Remote)

Role Description: Developed and enhanced features for a mobile payment and rewards application. Full-stack development, API integration, and CI/CD deployment in a structured Agile environment.

- Built core payment and rewards features for a mobile platform using React Native, Expo, Supabase, and Express.js.
- Implemented secure authentication and end-to-end transaction workflows across frontend and backend layers.
- Established Git-based CI/CD pipeline, improving deployment consistency and reducing manual release effort.
- Delivered all assigned milestones on schedule and was offered a full-time continuation upon completion.

Software Engineer

Aug 2021 - Jun 2023

Accenture, Hyderabad, India

Role Description: Enterprise software engineering delivering full-stack web applications and backend systems for large-scale client projects across Agile delivery teams.

- Developed and maintained backend systems using C#, ASP.NET Core MVC, and SQL Server for enterprise client applications.
- Contributed to React.js frontend delivery and stakeholder communication across multi-disciplinary Agile teams.
- Performed 120+ peer code reviews, contributing to an 18% reduction in defect rates across the delivery team.
- Recognised with the Accenture Unsung Hero Award 2022 for outstanding contribution to project delivery.
- Selected directly as Analyst, skipping the Associate entry level, after achieving a perfect score in technical placement.

ADDITIONAL EXPERIENCE

Catering Assistant

Oct 2025 - Present

Green Hill Aged Care, Sydney, NSW

Role Description: Community-focused support role in a regulated high-care aged care facility. Meal preparation and service delivery within strict dietary compliance and process standards.

- Operated reliably within a regulated, process-driven healthcare environment requiring consistent compliance and attention to detail.
- Communicated clearly and compassionately with residents, families, and clinical staff across daily service interactions.

- Managed time-sensitive meal service across multiple residents, maintaining accuracy and composure under daily deadlines.
- Demonstrated consistent reliability and professionalism, contributing positively to a high-care team environment.

EDUCATION

Master of Computer Science (Machine Learning Big Data)

Jul 2023 - Jul 2025

University of Wollongong, NSW

- Key Achievements: Distinction | WAM: 77.9/100 | Academic Excellence Scholarship
- Key Subjects: Machine Learning, Deep Learning, Big Data Analytics, Computer Vision, NLP, Algorithms Data Structures, Database Systems, Software Engineering

Bachelor of Aeronautical Engineering

Aug 2017 - Aug 2021

MLR Institute of Technology, India

- Key Achievements: GPA: 7.0/10 | Published research on UAV design using computational modelling
- Key Subjects: Programming, Data Structures, Computational Modelling, Embedded Systems (Arduino/Raspberry Pi)

ACADEMIC PROJECTS

DrugNexusAI (Clinical AI Platform)

Sep 2024 - Feb 2025

University of Wollongong - Capstone Project

- Designed and trained a drug interaction prediction model using ChemBERTa, covering the full ML lifecycle from data cleaning to deployment.
- Built role-based doctor and patient portals with a RAG system integration, improving prediction accuracy and clinical usability.
- Deployed full platform at <https://drugnexusai.app> across AWS, Render, and Vercel with CI/CD pipelines.

PERSONAL PROJECTS

ShiftMate WAYA (AI-Powered Scheduling Apps)

2026

- Designed and built two linked scheduling apps for shift workers and managers, inspired directly by lived experience in aged care.
- Implemented email notification workflows via Resend and built sick day cover request logic across worker and manager portals.
- Live at <https://waya.onrender.com> (worker app) and <https://shiftmate-1.onrender.com/login> (manager portal).

HireReady AI (Resume Tailoring SaaS)

2026

- Architected and shipped a full SaaS product with ATS scoring, AI-generated cover letters, user authentication, and Stripe billing.
- Integrated Claude API for intelligent resume analysis and tailoring, with a clean Next.js frontend and Supabase backend.
- Live at <https://hirereadyai.app> - AI-powered SaaS with ATS scoring, cover letter generation, and Stripe billing.

ADDITIONAL QUALIFICATIONS

ACS Professional Year Program - ICT

Jan 2026 - Present

QIBA, Sydney

- ACS-accredited work-readiness program covering business communication, workplace relations, WHS, professional networking, and an internship component.

IT Support Job Ready Program

Jan 2026 - Apr 2026

TechSkills Institute, Sydney

- Hands-on L1/L2 IT support training: Active Directory, Microsoft 365, networking, RMM tools, Intune, virtualisation, ticketing systems in a simulated MSP environment.

PROFESSIONAL AFFILIATIONS

- Australian Computer Society (ACS) - Associate Member | Member ID: 4470859
